

## COMPLETED CONTRACT

**Site and Location:** Scoil Mhuire, Ballymore Eustace, Co. Kildare.

Scoil Mhuire is a primary education school situated on the banks of the River Liffey in Ballymore Eustace, Co. Kildare.

This project involved the complete refurbishment and extension to the school. The school, an existing building, required extensive renovation while still in use, further increasing its capacity to a 16 classroom facility.

Main activities of work consisted of excavation and earthworks, piling, retaining walls and all external finishes including hard and soft landscaping. Internal works involved renovations to the existing school building, the new build of an additional 10 classrooms, a new indoor sports arena and activities hall, modifications to the kitchen and offices and the refurbishment of the existing toilet facilities.

The new building was built using traditional cavity block wall construction, highly insulated to meet the current Building Regulations and favouring our commitment to the green agenda.
