

COMPLETED CONTRACT

Site and Location: LUAS Site Enabling Works, Sandyford, Dublin 18.

The Royal Procurement Agency (RPA) hired CLG to undertake the advanced site enabling works prior to the laying of tracks for the Green Luas line B1 extension in Sandyford Industrial Estate, Dublin 18.

The project involved large utilities diversions and reinstatement work. The works were carried out on some of the busiest stretch of roadways, the M50 motorway and industrial developments in Sandyford, Dublin18. This called upon very detailed vehicular and pedestrian traffic management schemes to be designed and agreed with the constant liaising with all affected parties.

All of the above work was carried out in strict compliance with the RPA safety requirements requiring many method statements to be produced, agreed and implemented.
