

COMPLETED CONTRACT

Site and Location: Bord Gáis Networks - Period Contract.

CLG have repeatedly won Bord Gáis Networks contracts over a period of 25 years proving our quality, safety, budgetary credentials and our track record for reliable programming.

The contract involves the construction and maintenance of BGE's PE Network including the provision of 24/7 emergency response services throughout the region and covers the enabling works, laying, commissioning, maintenance and decommissioning of low pressure and medium pressure gas mains and services, together with associated work.

There is also at times, the requirement to protect existing services, as well as a need for saw cutting, breaking out hard surfaces, service diversions, relining existing cast iron manholes, deep trench excavations, directional drilling, tunnelling, hand excavations, and pole and street lighting erection.
